## It's Time for Plan B

Welcome to the B-cycle pilot program for NPS. B-cycle is a zero-hassle, zero-emissions way to get around the city. A replacement for Plan A with its oil dependence, gridlocked traffic and pollution. So, grab a B-cycle from the nearest B-station. It will change the way you go. And that will change your community.

### B-knowledge

Answers to some of the more frequently asked questions about B-cycle.

When and how can I check out a B-cycle?

Can I use a B-cycle for official use?

→ Can I use a B-cycle for personal recreation?

Yes! We hope that during a break in your day you'll enjoy the freedom of a B-cycle to have a picnic in the park, run errands, meet friends, or simply do some light exercise. Remember, if you want to B-cycle for pleasure, please do so either during an approved break time or during non-work hours.

What do I do if my B-cycle breaks down while I'm on it?

Do you provide helmets, and do I have to wear one?

Will locks be provided, or do I need to bring my own?

Where can I get answers to other questions?

How much does it cost to become a B-cycle member?

What are the health benefits of biking?

What are the hours of operation?
