

# BOSTON BIKES SUMMIT

October 22 - 24, 2007

Schedule of Public Events (check [www.bostonbikessummit](http://www.bostonbikessummit) for locations)

## Making Boston a World Class Bicycling City

What is the Boston Bikes Summit? A team of experts from around the country and the local area will descend on Boston for an intensive three day program. In addition to events open to the public (see below), the team will hold a variety of focused technical workshops and planning sessions with Boston City Hall officials and staff on all aspects of bicycle-friendly communities. The input and feedback gathered from the public meetings and technical sessions will be distilled into a set of short-term recommendations for improving bicycling in Boston.

Visit [www.bostonbikessummit.info](http://www.bostonbikessummit.info) for more information.

City Of Boston
