BICYCLING MEANS BUSINESS
COLORADO - 7

**FEDERAL INVESTMENT IN COLORADO**

$9,639,154

AVERAGE ANNUAL FUNDS FROM TRANSPORTATION ENHANCEMENTS, SAFE ROUTES TO SCHOOL, AND RECREATIONAL TRAILS

AVERAGE BIKING AND WALKING PROJECTS PER YEAR » 58

**RETURN ON INVESTMENT FOR COLORADO**

$311,870,000

ANNUAL GROSS INCOME FROM BICYCLE RETAIL STORES

JOBS » 2,581

“The inaugural USA Pro Cycling Challenge last summer was viewed by a worldwide audience of more than 20 million people and generated more than $80 million in economic activity in Colorado.”

- Gov. John Hickenlooper

**EXAMPLES OF BICYCLE FRIENDLY COLORADO**

- Arvada
- Advanced Micro Devices
- Castle Rock
- Durango
- Fort Collins
- Lakewood
- Longmont
- Carbondale
- Golden
- Gunnison
- Fort Collins Veterinary Emergency Hospital
- University of Denver
- Colorado State University
- Denver Zoological Foundation
- New Belgium Brewing

**TOWARD ZERO DEATHS – FIXING A SAFETY BLINDSPOT**

**WILL YOU SUPPORT A NATIONAL PERFORMANCE MEASURE TO REDUCE BICYCLIST AND PEDESTRIAN DEATHS?**

**THE PROBLEM**

The number of people killed on our nation’s roads has fallen dramatically in recent years—from 37,423 in 2008 to 32,367 in 2011. But this movement Toward Zero Deaths has a significant blindspot: The number of bicyclist and pedestrian deaths is on the rise.

Pedestrian and bicyclist fatalities have increased from 12% of all roadway deaths in 2008 to almost 16% in 2011.

Even as the number of fatalities has increased, the attention to bicycle and pedestrian safety has not. Less than 0.5% of federal Highway Safety Funds are spent improving bicyclist and pedestrian safety. Currently, there is no incentive or guidance given to states to reduce the annual toll of 5,000 pedestrian and cyclist deaths.

**THE SOLUTION**

MAP-21, the new transportation law, provides a solution. The U.S. Department of Transportation must set safety performance measures for reducing fatalities and serious injuries. We believe the U.S. Department of Transportation should set a national performance goal to reduce bicyclist and pedestrian fatalities. These performance measures will allow maximum flexibility to state and local governments to achieve those goals.

“There is now growing evidence to suggest that cities with higher bicycling rates also have better road safety records.”

— Wesley E. Marshall, Department of Civil Engineering at University of Colorado-Denver, and Norman W. Garrick, Department of Civil & Environmental Engineering at the University of Connecticut.
