SAFETY MEASURES FATALITIES <i>Fatalities per 10k daily bicyclists</i>	1.4	39.9

KEY STEPS TO SILVER

» Develop a comprehensive bike plan in close collaboration with the community to ensure public involvement, information and ownership. Focus on developing a seamless on and off street bicycling network that creates short distances between residential areas and popular destinations. Complement infrastructure planning with encouragement, education, and enforcement programs to increase usage. Adopt a Complete Streets policy and offer implementation guidance.

» Continue to increase the amount of high quality bicycle parking throughout the community, especially at businesses.

» Evaluate the entire Great Miami Trail in town to identify all sections that need to be upgraded to meet current design standards for minimum radii, site distance, compliance with

MUTCD, Chapter Nine for signage and marking; and intersection design.

» Host a League Cycling Instructor (LCI) seminar or sponsor the certification tuition of interested cyclists to increase the number of certified LCIs in your community. Having local instructors will enable your community to expand cycling education, recruit knowledgeable cycling ambassadors, deliver education to motorists, and have experts available to assist in encouragement programs.
