BICYCLE EDUCATION FOR POLICE

BICYCLE SAFETY EMPHASIS IN STRATEGIC HIGHWAY SAFETY PLAN

TOP 10 STATE FOR CONGESTION MITIGATION AND AIR QUALITY SPENDING

TOP TIP

Spend all Transportation Alternatives Program dollars on biking and walking projects in your state (don't transfer out).

FEEDBACK

- Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian.
- Adopt a statewide, all-ages cell phone ban to combat distracted driving and increase safety for everyone.
- Adopt a statewide Complete Streets policy. The National Complete Streets Coalition has a model state policy and a variety of other resources to ensure adoption and implementation.
- Also adopt performance measures, such as mode shift or a low percentage of exempted projects, to better track and support Complete Streets Policy compliance.
- Adopt a state bicycle design manual that includes design drawings, guidance on when to use established and innovative design treatments, and public engagement.
- Ensure that no funds from the Transportation Alternatives program are transferred for purposes other than bicycling and walking projects.
- Adopt federal funding project rating criteria that incentivize bicycle projects and accommodations.
- Dedicate state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks.
- Update your state bicycle master plan. The plan update should evaluate and build on the previous bicycle master plan, and reflect changes in bicycle user needs.
- Adopt a mode share goal for biking to encourage the integration of bicycle transportation needs into all transportation and land use policy and project decisions.

The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. It asks comprehensive questions across 5 categories: Legislation and Enforcement, Policies and Programs, Infrastructure and Funding, Education and Encouragement, Evaluation and Planning. The results listed above provide only a snap shot of the full application. They are intended to offer some ideas for further growth in bicycle friendliness.
