BICYCLE EDUCATION FOR POLICE

BICYCLE SAFETY EMPHASIS IN STRATEGIC HIGHWAY SAFETY PLAN

TOP 10 STATE FOR CONGESTION MITIGATION AND AIR QUALITY SPENDING

TOP TIP

Utilize all MAP-21 funding programs - including TAP, HSIP, CMAQ, STP, and Section 402 - to include biking and walking in all transportation projects.

FEEDBACK

- Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian.
- Develop a Police Officer Standards and Training (POST) curriculum for bicycling enforcement both for new officers and continuing education – focus on laws related to bicyclists, interactions between motorists and bicyclists, and bicycle collision investigation.
- Integrate bicycle enforcement training into the police academy curriculum for new officers.
- Adopt a statewide, all-ages cell phone ban to combat distracted driving and increase safety for everyone.
- Collect data regarding enforcement actions against motorists based on incidents with bicycles, such as traffic tickets issued, prosecutions, or convictions.
- Create a system of state bike routes that connect to destinations, and are suitable for all types of bicyclists.
- Dedicate more state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks.
- Update your state bicycle master plan. The plan update should evaluate and build on the previous bicycle master plan, and reflect changes in bicycle user needs.
- Adopt performance measures to decrease bicycle fatalities.
- Adopt a mode share goal for biking to encourage the integration of bicycle transportation needs into all transportation and land use policy and project decisions.

The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. It asks comprehensive questions across 5 categories: Legislation and Enforcement, Policies and Programs, Infrastructure and Funding, Education and Encouragement, Evaluation and Planning. The results listed above provide only a snap shot of the full application. They are intended to offer some ideas for further growth in bicycle friendliness.
